

# ***DEJA-VU***

*Words & Music by Stash Kirkbride*

**Verse 1:** To every beginning, there must be a lifetime,  
To understand you need only follow me.  
I'm going back to where my life began,  
Was the day you came to me.

**CHORUS: I know where love is,  
I left it far behind me.  
And it feels like a deja vu,  
Being here alone with you again.**

**Verse2:** Funny how the days went by without you,  
All the games we played I still recall.  
To live and learn became my pastime,  
I took your call and now we're here.

**CHORUS: I know where love is,  
I left it far behind me.  
And it feels like a deja vu,  
Being here alone with you again.**

*INSTRUMENTAL*

**Deja vu,  
I've already seen what we have been.  
It was a deja vu,  
It wasn't me and you.  
Deja vu.**
