

FLYING HOME

Words & music by Stash Kirkbride

Verse 1: Don't try and tell me you don't think of me
When the crowds have gone and said goodbye
And although we may be miles apart
Hold a place for me in your heart
For I'll be flying home real soon

Bridge: Been there and back and lately
I've been back again
And I've travelled the world since
I just don't know when

**CHROUS: But soon I'll be, flying home to you
Back to the one I love
And that is you, babe
Home to where I belong
And it will not be long
No, no I'll be flying home
And I will be on my own
Until then, oh when
We will be as one
Oh yes, I'll be flying home to you**

Verse 2: Another city and another town
So hard not being around
The one who makes me smile each day
But they cannot keep us apart for too long
For you and I, babe, we belong

Bridge: Been there and back and lately
I've been back again
And I've travelled the world since I just don't know when

**CHORUS: But soon I'll be flying home to you
Back to the one I love
And that is you, babe
Home to where I belong
And it will not be long
No, no I'll be flying home
And I will be on my own**

**Until then oh when
We will be as one
Oh yes, I'll be flying home to you**

GUITAR SOLO

**I'll be flying home
Back to the one I love
And that is you, babe
Until then oh when I'll be flying home to you**
