

# ***FOR AND ABOUT YOU***

*Words & music by Stash Kirkbride*

Verse 1: So the game is over,  
The road lies straight ahead.  
No need for any lies  
And the foolish things we said.  
Time to move on, to be strong, together we will reign.  
Time to hit the ground and make the sound of newfound love again.

Bridge: Every time you come unto me,  
It's like your life and all shoots through me.  
You are the one, you are the one.

And I, know that I will love you.  
And I, know that I will care, for the rest of my days, in thousands of ways

**CHORUS: For and about you, this song is for you.  
Nothing without you, what more to say.  
Always remember and never forget.  
Our time is to come, we're not over yet.**

Verse 2: Ever wondered darling, ever thought maybe  
Ever woke up crying, so you just couldn't see.  
Well if that is the case, then we must embrace, the chance of a lifetime,  
Believe me. Oh, Believe me.

Bridge: Every time you come on to me,  
it's like your life and all shoots through me.  
You are the one, you are the one.  
And I, know that I will love you, yes  
And I, know that I will care, for the rest of my days, in thousands of ways.

**CHORUS: For and about you, this song is for you.  
Nothing without you, what more to say.  
Always remember and never forget.  
Our time is to come, we're not over yet.**
