

# ***WHEN ALL IS SAID AND DONE***

*Words & music by Stash Kirkbride*

**Verse 1:** Every morning when we wake  
To start again for heaven's sake  
So much to be found  
So just hang around  
In a lifetime you will see  
A better world for you and me  
Fortune and glory  
Are not the only story  
To see a puppy grow to size  
To love our elders who are wise  
To come all we pray  
For a brighter new day

**CHORUS:** When all is said and done I know  
Heaven holds a place for those  
Who try and live a better life  
To travel well with head held high  
To give and take and not ask why  
The child within  
Will live again  
Believe me.

**VR2:** Stop and take a photograph  
Of what will be your epitaph  
Words left behind  
Engraved on their minds  
It's up to you, up to me  
Free it up and let it be  
So much to care for  
And this is why and therefore

**CHORUS:** When all is said and done I know  
Heaven holds a place for those  
Who try and live a better life  
To travel well with peace of mind  
There's no telling what you'll find  
And the child within  
Will breathe again  
Believe me

*INSTRUMENTAL*

**Ride Out:** Heaven holds a place for those who pray  
And we will live in a better world someday  
Within a circle of our friends  
We'll put it right and make amends  
Believe me, believe me  
And who are they, those chosen few  
Who ride it out with what to do  
To fortify and justify their every gain  
We have a will, we have a way  
Within our world a better day  
Is coming to us once again, Believe me

Heaven holds a place for those who pray  
And we will live in a better world someday  
Within a circle of our friends  
We'll put it right and make amends  
Believe me  
Believe me  
Believe me
